2. Ongoing Charges (per annum)

Charge	Basis	% of fund	First-year £ (on £179,732)
Platform charge (Aviva)	Tiered	0.25%	£449
Fund charge (Helios Moderate Portfolio)	Weighted average OCF	0.27%	£485

Total ongoing cost		0.97%	£1,743

3. Comparison to Existing Arrangement

The Meridian DB scheme does not levy member-level charges in the same form; the benefit is expressed as a guaranteed income. We therefore compare to the alternative of leaving the existing Aviva personal pension unchanged and keeping the Meridian DB benefit:

Arrangement	Year 1 cost (£)	Year 1 cost (%)
Recommended: consolidated flexi-access drawdown	£1,743	0.97%
Current: Aviva PP £38,400 ongoing cost only	£377	0.98%
Current: Meridian DB (no member-level cost)	—	—

The recommended arrangement has a similar ongoing cost percentage to your existing Aviva PP. The additional cost in pounds reflects the larger fund under management.

4. Cumulative Cost Projection

A year-1 projection is shown above. For longer-term cumulative projections please refer to the separate product illustration document.

5. Cancellation of Ongoing Service

You may cancel the ongoing adviser charge at any time by writing to Helios Wealth Management at the address below. The ongoing charge will cease from the following month. Platform and fund charges will

continue so long as you remain invested through Aviva.
