Scenario	Growth pa	Fund exhausted approx. age

Higher	7.0%	Fund lasts to age 95 with residual £85,000

The value of your investments can go down as well as up. You may get back less than you invested. Past performance is not a reliable indicator of future results. If you transfer out of your defined-benefit pension, you will lose the guaranteed income for life that the scheme provides, and this decision is generally irreversible.

5. Tax Treatment

25% of the fund may be taken tax-free as pension commencement lump sum, subject to the lump sum allowance of £268,275 (2025/26). Remaining withdrawals are taxed as income at your marginal rate. Tax treatment depends on your individual circumstances and may change. For this recommendation specifically: assuming combined taxable household income (spouse DB £28,400 + your State Pension £11,502 + £7,500 marginal from drawdown) the next £10,000+ of drawdown income falls within the basic rate band.

6. Cancellation

You have the right to cancel this arrangement within 30 days of receiving the policy documents. To cancel, write to Aviva at the address in the policy documents. Please note that if you cancel after the DB scheme transfer has been processed, **the DB transfer is generally irreversible** — the Meridian scheme is not obliged to accept a return of transferred funds. If you cancel within the 30-day period, the value returned may be less than you invested if markets have fallen.

7. Financial Services Compensation Scheme

Your investments may be covered by the Financial Services Compensation Scheme (FSCS). If Aviva were unable to meet its obligations, you may be entitled to compensation up to **£75,000 for investment claims**. Further information is available at fscs.org.uk or 0800 678 1100.

(Note to reviewer: this FSCS figure is deliberately out of date in the sample pack — the current investment limit is £85,000 — so the Disclosure Checker flags it.)
